TECHNOLOGIES

HOW IT WORKS

WHY WE CHANGED THE FRONTEND

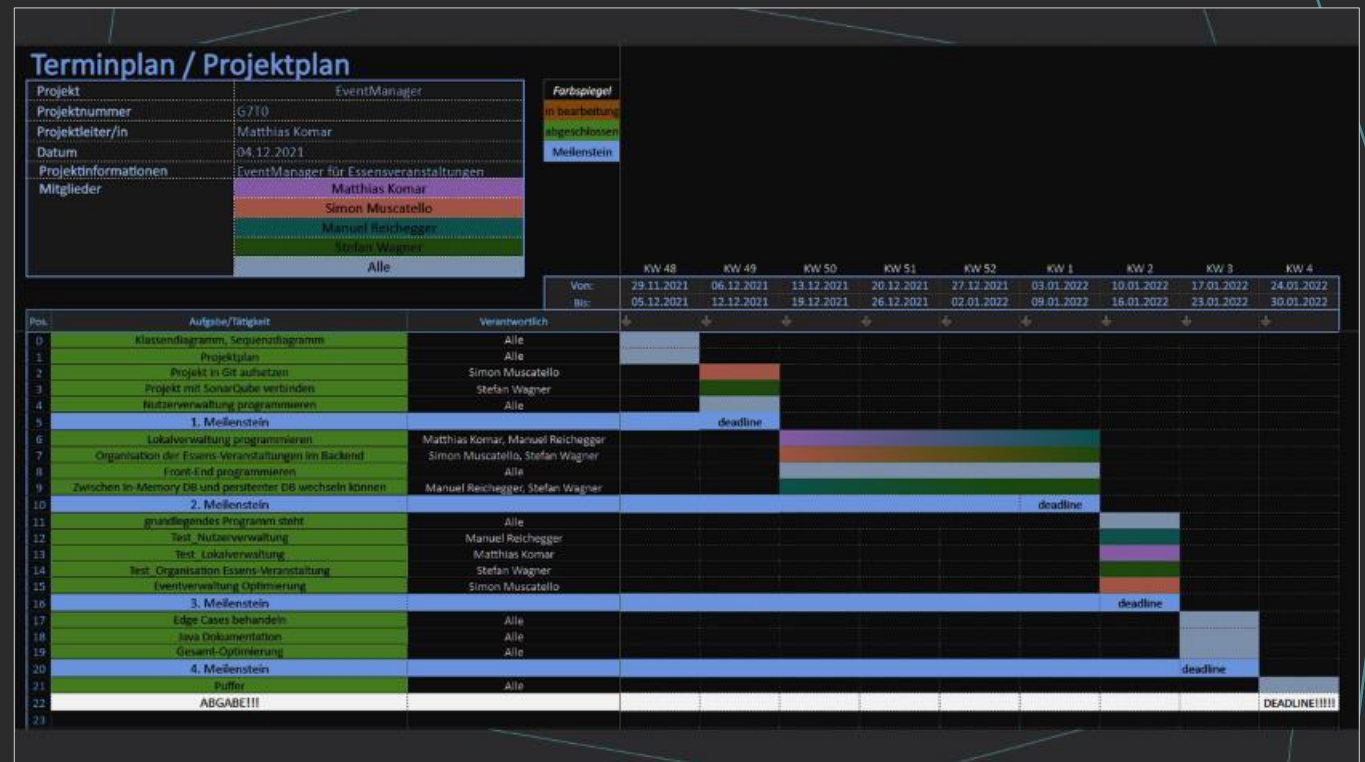

Vue.js is:

- Simple to use (based on JavaScript and HTML)
- Runs on Node.js (access to many packages)
- Excellent Documentation
- Easily created and good-looking UIs with Vuetify
- Learning Technologies most used in the workplace (JS)
- Easy error handling in the frontend

PROJECT-PLANNING

- Underestimated frontend switch
- Underestimated Unit-tests
- Overall good project-planning

Terminplan / Projektplan
